County road agencies release 2025 “don’t miss” list of local roads for fall colors

LANSING, Mich. – Michigan in the fall paints a masterpiece for all to see, with residents as its observers. And what better way to appreciate the colors than with a leisurely drive along a scenic county road?

“Taking a fall color tour down a county road is a great way to spend an afternoon,” said Denise Donohue, CEO of the County Road Association (CRA) of Michigan. “Michigan’s colors are among the best in the country, making fall the perfect opportunity to go out and enjoy the state’s natural beauty.”

“This list of ‘don’t miss’ fall color drives reflects the best suggestions from over 30 county road agencies who know their own best fall color vistas,” she said. The list may be found on CRA’s website at micountyroads.org/mibackroads.

According to the 2025 Pure Michigan fall color map, peak viewing conditions are expected from October 6 to November 8.

Drivers are invited to share photos on CRA’s Facebook page (facebook.com/micountyroads) to let everyone know the best local road spots for Michigan’s fall colors. Be sure to indicate an intersection, the county and the closest city/village in your post and include #MiBackroads. A safety reminder: Never take photos while driving. Find a designated parking area, then snap away!

The following regions are listed in order of expected leaf coloring dates starting from the Upper Peninsula and moving south.

Upper Peninsula (Oct. 6-20)

“Don’t miss” fall drive recommendations are brought to you by the County Road Association of Michigan, whose 83 local road agency members represent the unified voice for a safe and efficient county transportation infrastructure system in Michigan, including appropriate stewardship of the public’s right-of-way in rural and urban Michigan. Collectively, Michigan’s county road agencies manage 75% of all roads in the state, including 90,500 miles of roads and 5,900 bridges. County road agencies also maintain the state’s highway system in 63 counties. Michigan has the nation’s fourth-largest local road system.
